The 7th Conference of the Australasian Osseointegration Society was held from 4–7 November 2009. The Australasian Osseointegration Society (AOS) is an affiliate association of DGZI similar to the AO and AAID academies. Some DGZI members joined the congress and DGZI was represented by the 1st Vice-president and Treasurer Dr Rolf Vollmer as well as the international representative Dr Mazen Tamimi from Jordan. After flight time of around 20 hours the participants enjoyed the scientific program under the motto “staying between the flags”.

In his welcome greetings the current President of AOS and AOS 2009 Chairman Saso Ivanovski emphasized: “On behalf of the Australasian Osseointegration Society, I am honoured and privileged to invite you to the AOS 7th Biennial Conference to be held at the Gold Coast, Queensland from 4–7 November 2009.

The conference is dedicated to ‘Staying Between the Flags’, with the aim of fostering safe clinical practice by promoting understanding of the benefits and limitations of various contemporary clinical techniques. The scientific program has been designed to address practical and highly relevant issues that concern all practitioners involved in implant dentistry, with lecture topics targeted at both the beginner and the experienced clinician. We have confirmed outstanding speakers who will contribute to an exciting three days, providing an authoritative and reliable scientific and clinical basis for the treatment of patients, as well as addressing exciting new innovations and research. Some of these internationally renowned speakers are: Prof Dr Jan Lindhe, Dr Michael Norton, Dr Ueli Grunder, Prof Joseph Kan, Dr Dietmar Weng, Dr Gabi Chaushu, Prof Niklaus Lang and Dr Richard Lazzara. Take a few extra days in conjunction with the conference and experience this wonderful loca-
tion. To kick-start the conference, we are hosting a welcome cocktail reception on Level 77 of Q1, the world’s tallest residential tower, with breathtaking 360 degree views of the coast. The Gold Coast location of this conference is renowned for its sunny subtropical climate, popular surfing beaches, active nightlife and wide variety of tourist attractions. The Gold Coast is a fantastic venue all year round, but especially at the beginning of the summer when this event is to be held.

The Gold Coast is a spectacular coastal city, stretching along 70 kilometres of white sandy beaches that meet the Pacific Ocean. As a primary destination for visitors, the Gold Coast offers a myriad of entertainment opportunities and recreational experiences. From swimming and surfing to bungy jumping and bushwalking, there are countless recreational activities on offer on the Gold Coast. The Gold Coast is Australia’s major theme park capital, with major theme parks offering rides and themed attractions. Bring the family & experience all the Gold Coast has to offer!

The 8th Biennial Conference of the Australasian Osseointegration Society will be held from 9–12 November 2011 in Adelaide Convention Center. DGZI members who are interested to participate can get more information from our office in Düsseldorf. The society president and conference president will be Davor Hribar.
The International Team for Implantology (ITI), a leading academic organization dedicated to the promotion of evidence-based research and education in the field of implant dentistry, is holding the 11th ITI World Symposium from April 15 to 17, 2010 in Geneva, Switzerland. At the same time, the organization, which was founded in 1980, is celebrating its 30th anniversary. Since the first ITI World Symposium in 1998, the meeting has developed into one of the most prestigious implant dentistry events worldwide. Under the heading “30 years of leadership and credibility”, a total of 104 experts from 25 countries will present on current themes and developments in the field. The following main areas will be explored at both a theoretical and practical level over the Symposium’s three days:

- New clinical methods for diagnosis and treatment planning
- New and proven treatment procedures
- Complications in implant dentistry or dealing with reality

There will be simultaneous translation available for all the presentations in the main sessions from English into German, French, Italian, Spanish, Portuguese, Japanese, Korean, Mandarin Chinese, Russian, Turkish and Farsi. For the first time, the ITI World Symposium is complementing its main sessions with two full-day pre-Symposium courses on 14 April as well as an industry exhibition. The attractive and historic city of Geneva at the heart of Europe is the ideal location for the event. The city’s excellent infrastructure in combination with the Palexpo congress center offers both exhibitors and participants excellent conditions.

About the ITI

The International Team for Implantology (ITI) unites professionals around the world from every field of implant dentistry and related tissue regeneration. As an independent academic association, it actively promotes networking and exchange among its membership. ITI Fellows and Members, who now number more than 7,000 in total, regularly share their knowledge and expertise from research and clinical practice at meetings, courses and congresses with the objective of continuously improving treatment methods and outcomes to the benefit of their patients. The ITI is active in three principal areas: research, development and education. In 30 years, the ITI has built a reputation for scientific rigor combined with concern for the welfare of patients. The organization focuses on the development of well documented treatment guidelines backed by extensive clinical testing and the compilation of long-term results. The ITI funds research as well as Scholarships for young clinicians, organizes congresses and continuing-education events and also publishes reference books such as the ITI Treatment Guide series.
